Financing With a Personal Loan Vs. Credit Card

Financing Option	Loan Amount	Interest / APR	Months to Repay	Total Interest
Personal Loan	\$15,000	12.5% / 15.742%	36 months	\$3,064.96
Credit Card*	\$15,000	17.99% / 17.99%	253 months	\$14,581.65

*Credit card example above assumes a \$15,000 balance making a monthly payment equal to 3% of the remaining monthly balance with a minimum payment of \$20 at 17.99% APR as calculated using the CreditCards.com Minimum Payment Calculator versus a RocketLoans Personal Loan of \$15,000 including interest and origination fee of \$675.

Finance Example

Loan Amount:	\$2,000.00
Origination Fee (4%)*:	\$80.00
Net Funds Deposited Into Your Account:	\$1,920.00
Term:	36 Months
Annual Percentage Rate (APR):	10.80%
Interest Rate:	8.00%
Monthly Payment:	\$62.67
Total Interest:	\$256.22
Total Finance Charge:	\$336.22

The interest represented assumes full payments each month for the entire term of the loan using ACH repayment. RocketLoans Personal Loans never have a pre-payment penalty, so the loan can be repaid at any time by making a full payment of the remaining balance and incurred interest at the time of payoff.

Qualified clients using RocketLoans will see loan options for a 36 or 60 month term, and APR ranges from a minimum of 5.983% to a maximum of 28.99% depending on their credit profile.

*An origination fee of 1% - 6% is charged to each loan. The fee will be deducted from the balance of the loan before the funds are disbursed to the client.

Additional Program Details and Restrictions

- Not available in:
 - Nevada
 - Iowa
 - Vermont
- Ohio:
 - Requires minimum loan of \$5,001
